(2) Such Commissioners may be appointed for the whole province or any part thereof or for the trial of any particular accused person or class of accused persons.

Provided that such Commissioners shall make a memorandum only of the substance of the evidence of each witness examined, and shall not be bound to adjourn any trial for any purpose unless such adjournment is in their opinion necessary in the interests of justice.

11. No order under this Act shall be called in question in any court, and no suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Act.

STATEMENT OF OBJECTS AND REASONS.

In order to provide for special measures to secure the public safety and the defence of British India and for the speedy trial of certain offences the Government of India passed the Defence of India (Criminal Law Amendment) Act, No. IV of 1915. The provisions of this Act were applied *mutatis mutandis* to Mysore by the Defence of India (Emergency) Regulation, V of 1917, as an emergency measure under Section 15 of the Mysore Legislative Council Regulation, 1907. As under that section the Regulation will be in force only up to the 24th February 1918 and as it is found necessary to continue it in force here as long as the Defence of India (Criminal Law Amendment) Act, 1915, is in force in British India, this Bill is now framed.

NOTIFICATIONS.

No. 407—L. C., dated 27th February 1918.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further to amend the Mysore Land Revenue Code, 1888, is published for general information with the statement of objects and reasons.

By Order,
G. SREENIVASA IYER,
Secretary, Mysore Legislative Council.

Bill further to amend the Mysore Land Revenue Code, 1888.

Whereas it is expedient further to amend the Mysore Land Revenue Code, 1888; His Highness the Maharaja is pleased to enact as follows:—

Amendment of section 20.

1. The second proviso to section 20 shall be omitted.

Amendment of section 39.

2. In section 39 for the words "Revenue Commissioner" the words "Deputy Commissioner" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The question of the powers of the Deputy Commissioner in regard to the appointment of subordinate officials in the Revenue Department should come properly within the scope of the Rules framed under the Code, and hence the proviso to section 20 is considered unnecessary and proposed to be omitted. Necessary rules will be framed to delegate such powers to the Deputy Commissioner as the Government may deem fit. The Bill is framed accordingly.

2. The powers in regard to the assignment of lands for communal purposes under section 39 of the Land Revenue Code now exercised by the Revenue Commissioner have been proposed to be delegated to the Deputy Commissioners under the Government Order decentralizing authority in the Land Revenue Department.

The Bill accordingly provides for this amendment.

No. 408—L. C., dated 27th February 1918.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill to amend the Mysore Village Offices Regulation, 1908, is published for general information with the statement of objects and reasons.

By Order,
G. SREENIVASA IYER,
Secretary, Mysore Legislative Council.

A Bill to amend the Mysore Village Offices Regulation, 1908.

Whereas it is expedient to amend the Mysore Village Offices Regulation, 1908; His Highness the Maharaja is pleased to enact as follows:—

Amendment of section 7.

1. (1) In sub-section (1) of section 7 of the Regulation the proviso shall be omitted.

(2) In sub-section (2) of the section the words "or subject to confirmation of the Deputy Commissioner or Assistant Commissioner" shall be omitted and the words "for a period not exceeding one month appointing a substitute in his place" shall be inserted between the words "suspend" and "any" and the following proviso shall be added at the end of the sub-section, *viz.*—"Provided that all orders of suspension and appointment passed by an Amildar or Deputy Amildar shall be communicated within a week to the Assistant Commissioner or the Deputy Commissioner who may cancel the order giving reasons therefor."

Amendment of section 8.

2. To section 8 the following new sub-section shall be added as sub-section (5).

"(5). The Amildar or Deputy Amildar may grant leave to village officers up to three months and appoint substitutes for the period provided that such appointment shall be communicated to the Assistant Commissioner or the Deputy Commissioner and that such officer may cancel the appointment giving his reasons therefor."

STATEMENT OF OBJECTS AND REASONS.

In order to give greater control to district authorities in the Revenue Department in the matter of granting leave to and of appointing, fining, suspending, dismissing and removing village officers under the Village Offices Regulation, 1908, it is considered desirable to amend the Village Offices Regulation in those respects. The Bill as drafted makes the necessary change.

4. The tenders should reach the Office of the Conservator of Forests in Mysore, Bangalore, not later than 1st February 1918.

5. The Conservator of Forests does not bind himself to accept the lowest or any tender or to assign any reasons for rejecting any tender.

6. The sleepers should be supplied by the 30th April 1918, and in considering the tender or tenders, preference will be given to the tender or tenders which, other things being equal, offer the earliest dates for delivering, and it must be understood that punctuality constitutes an essential part of the contract.

7. The sleepers should be sawn square and smooth, measuring 4 feet in length, 6 inches in width and 4 inches in thickness, and must be free from cracks, shakes, flaws and other defects.

8. The sleepers should be delivered at the jungle depots of thadasa, savé and hebbe; and payment would be made only for such of the sleepers as are passed by the Railway Construction Department at the Depots.

9. The contractor should fell, collect and prepare sleepers from out of the trees assigned by the Kadur District Forest Officer in the Forests of the Lakvalli and Hebbe Ranges.

10. The successful tenderer will be required to execute an agreement within a week from the date of acceptance of his tender embodying the following conditions, failing which the earnest money deposited by him will be forfeited and the contract cancelled.

Conditions.

(1) The fellings would be conducted on coppice principles in areas laid out and assigned by the District Forest Officer for the purpose.

(2) The trees would be felled in regular consecutive order. The contractor will not be bound however to fell such trees as are in the opinion of the District Forest Officer absolutely unfit for the purpose of sleepers.

(3) The felling of trees reserved by the department as standards shall be treated as an offence.

(4) The trees shall, as far as possible, be felled flush with the ground, and in no case the stump left behind in the ground after felling should exceed 6 inches in height.

(5) From the time of felling, the timber shall be at the sole risk of the contractor, who shall make his own arrangements for the protection of the same from fire, theft, wastage or damage of any kind whatsoever.

(6) The cost of felling trees, extraction of timber and preparation and carting of sleepers to the Depots shall be borne entirely by the contractor.

(7) Rejected sleepers, side boards, tops and end pieces, and all portions not used for sleepers shall remain the property of Government.

(8) Every portion of a tree must, as far as possible, be converted into sleepers if suitable for the purpose without causing undue wastage.

(9) Sleepers shall not be removed from the forests until they are checked by a duly authorized officer.

(10) All removals shall be effected under cover of passports issued by a duly authorized officer and the contractor shall obtain receipts from the Foresters concerned for all deliveries made which shall thereafter be in charge of the said Foresters.

(11) The contractor shall maintain a bound register in the form prescribed by the District Forest Officer, showing the number and other particulars of trees felled and the out-turn of sleepers.

(12) The contractor shall not assign his right under this agreement or any part thereof without the written permission of the District Forest Officer, for the time being, who may however refuse to grant such permission without assigning reasons therefor.

(13) A list of agents, representatives and other employees of the contractor shall be furnished and approved of by the District Forest Officer.

(14) The contractor shall be responsible for the acts of himself, his agents and all persons authorized by either of them.

(15) The contractor shall take all possible care so that no damage shall be done to any standing growth in the forest which he is not entitled to fell. For any such damage, unless caused by accident or causes beyond his control, the contractor shall pay such compensation as the Conservator of Forests shall decide.

(16) In case of any fire within the forest area to which this contract applies, the contractor and his workmen shall render every assistance to put out the fire and in all such cases give immediate notices of the occurrence of fire to the nearest Forest, Revenue or Police officer.

(17) In case of any dispute regarding this contract the Conservator's decision shall be final.

(18) For the due fulfilment of all and every one of the conditions of this contract, the contractor agrees for the withholding of one-tenth of the amount of his bills as security and to the forfeiture of this amount and as well as the earnest money, either in whole or in part for breach of all or any of the conditions of this contract as shall be decided by the Conservator of Forests and to the cancellation of the contract.

All the indenting officers for Forms and Stationery other than those who forward their indents to this office directly for compliance.

All indenting officers are requested to forward to this office before the 15th of February 1918 and 31st March 1918, one copy of each of the Forms and Stationery indent, respectively, instead of two as heretofore. The (provincial) officers should send their forms indents in duplicate as heretofore. The indents will not be received in this office after the due dates as a lot of inconvenience is experienced to make provision for complying with them adequately, considering the price of paper is steadily increasing and the supply of paper is never guaranteed.

SUBSIDIARY INSTRUCTIONS RELATIVE TO THE SUBMISSION OF APPLICATIONS FOR PRIORITY ASSISTANCE IN PROCURING SUPPLIES OF MATERIALS OR ARTICLES FROM THE UNITED KINGDOM.

The form should be used in connection with all applications, that is to say, not only with those for materials required to maintain continuity of operations but also with those for materials required for such new works, additions or extensions to existing works, as may be classified as war work.

2. Priority applications should be submitted in all cases where a priority certificate from the Ministry of Munitions is required before manufacture or issue of stock is allowed, or where the War Trade Department before issuing an export license, requires the production of such a certificate.

3. The Ministry of Munitions does not deal with the supply of paper and its priority scheme is, therefore, not applicable in respect of paper goods.

4. No priority certificates are necessary for medicines. The export from the United Kingdom of a large number of drugs has, however, been prohibited and medicines, patent or otherwise, containing these drugs are ordinarily unobtainable from the United Kingdom.

5. The export from the United Kingdom of all foodstuff which cannot be shown to be both indispensable and absolutely unobtainable elsewhere, has been prohibited.

6. No assistance can be expected in the matter of priority for orders connected with extensions of mills or factories whether in the nature of buildings, plant or machinery, unless such extensions are supported as urgent and essential for the conduct of the war. Extensions or enterprises having for their object the encouragement of local industries in India are not considered as sufficiently urgent or important to demand priority for any materials which may be asked for for such purposes.

7. It is also impracticable to secure assistance for any works of local importance, *e.g.*, water works, sanitary schemes, electric lighting projects, etc., even though they may be important from the standpoint of local interest.

8. Sufficient care should be exercised by applicants in answering the questions on the form and complete information should be given. It is in the interests of the applicants themselves that this request is made. The applications are finally dealt with by the Priority Branch of the Ministry of Munitions in London, which in most cases, has no information in regard to the work carried on by the applicant, except that contained in the form of application.

9. Applicants engaged on Government work should be careful to reply fully to question 2 on the form.

10. Special attention is drawn to the principle laid down by the Ministry of Munitions that all demands must be allocated to a definite purpose and use. Question 6 in the application form is intended to elucidate the specific purpose for which the application is made and the Munitions Board does not ordinarily consider that "to meet ordinary trade requirements," "for structural purposes," or "to replenish stocks," etc., are adequate reasons for granting priority certificates even though the stocks in question have been disposed of to a Government Department for "war" purposes.

11. In answer to question 7, the attempts made to obtain the material or a substitute in India, should always be briefly outlined.

12. Demands for stock by industrial concerns or dealers to meet their ordinary consumption should not exceed three months' requirements.

7. In default of payment, within the said period of the full amount of the purchase money, the deposit after defraying thereout the expenses of the sale, shall be forfeited to Government and the occupancy right shall be resold and the defaulting purchaser shall forfeit all claim to the occupancy right, or to any part of the sum for which it may be subsequently sold.

9. The purchaser shall previously to entering upon occupation of the land obtain the permission in writing of the Amildar under Section 58 of the Land Revenue Code. Such permission will only be accorded, on the purchaser paying Local Fund cess at the rate of one anna in the rupee on the amount of the purchase money. If the land is occupied without such permission being first obtained, the occupation will be liable to be treated as unauthorised under Section 59 of the Land Revenue Code.

10. The lands are divided into small plots or phods of 4 to 5 acres each, so as to be within the scope of even men of slender means. Each phod will separately be put to auction together with the corresponding dry plot if any appertaining to it.

11. No bids will generally be accepted for more phods than one unless it is proved to the satisfaction of the officer holding the sale that the bidder has enough means to cultivate them properly.

13. The purchaser will be bound to bring the wet plot fully under cultivation within the expiry of three years from the date of purchase; failing which, the plot will summarily be resumed to Government without any compensation. In exceptional cases and for adequate reasons, the period may be extended by one more year. The wet land and its corresponding dry land should always be held by the same holder and no alienation, resignation or resumption of one of them will be recognised as valid and binding on Government which does not in the same manner and to the same extent affect the other corresponding land.

The usual local and irrigation cesses will also be levied at one anna in the rupee and the railway cess at half an anna. Full dry assessment will be levied on the corresponding dry land from the date of purchase together with Local and Railway cesses.

15. Cultivation will be allowed subject to the Rules of the "Block System." They are briefly:—

(a) Only one-third of the land should be cultivated with "Thari" (wet) and the rest with "Thadi Crops" by rotation. *N. B.*—Sugar-cane and garden crops are classed as "Thari." In the case of water logged lands a slight deviation will be made subject to the payment of an extra water rate of one rupee per acre.

(b) Canals will run intermittently from 16th May to the end of November and continuously from December to 15th May. *Vide* Government Order No. 2753—Rev. 13721-5, dated 21st December 1907.

16. Any alienation of the land by the purchaser by sale, gift, mortgage or otherwise within the expiry of the period of three years will not be recognised by Government and in case of such alienation the lands will be liable to be resumed to Government at the risk of the subsequent purchaser and free of all encumbrances.

6. It shall also be competent for the Judges to reduce the amount of prizes, if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, over-crowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' Cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The Amateur Cup:—This will be competed for by private gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in classes I, II and III during the current Show.

(iii) The Floral Parade Cup:—This will be competed for by individual competitors and will be awarded to the winner of the first prize for the best florally decorated single Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The Cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following Show, the Cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the Cup at any two successive Shows, the Cup will be his or her property for good.

7. Out of the money prizes won with the Cups, (i) and (ii) a sum of Rs. 20 and 15 respectively, will be deducted to defray cost of a miniature facsimile Cup to be given as a souvenir to the last winner, except, of course, when the Cup is won outright.

8. Both Professional and Amateur compete for the same money prize in the individual groups, but in order to make the competition amongst Amateur for the Amateur Cup more complete and free from competition by Professionals, marks to make up the difference in the money value will be

given to the Amateur whenever a Professional has taken a higher prize in any group :—

Thus Nurseryman	A	wins	I prize	Rs. 8.
Amateur	B	"	II "	" 5.
"	C	"	III "	" 3.

Amateur B will get 3 marks in addition to his Rs. 5, so that his aggregate is the same as if he had won first prize. Similarly Amateur C will get 2 marks and takes position of second prize.

9. Gold, Silver and Bronze Medals will be available for all Classes and will be awarded at both the Summer and Winter Shows.

10. The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate Class or Classes.

(*b*) The exhibitor of exhibit of any more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

13. No exhibitor will be qualified to receive a Medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

OFFICIAL PAPERS.

Large Landed Estates.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Government Order No. R. 4009-21—L. R. 522-13-5, dated 1st December 1914, laying down rules for the grant of land under the scheme for the creation of large landed estates.

2. Government Order No. G. 15601-50—G. M. 554-16-1, dated 19th May 1917, constituting Special Committees during the Second Session of the Representative Assembly held in April 1917, for consideration and submission of recommendations on the measures necessary to popularize the Large Landed Estates Scheme along with certain other selected subjects of general importance.

3. Letter dated 26th September 1917, from Mr. B. Narasinga Rao, convener of the meeting forwarding the report * of the Special Committee containing suggestions as to the modifications required in the existing rules on the subject.

*(Printed as an accompaniment.)

No. R. 8951-9000—L. R. 65-17-23, dated 28th February 1918.

The suggestions of the Committee which are summarised in the last paragraph of the report are accepted to the extent specified below :—

Suggestion No. 1.—Government have no objection to the appointment of District Committees for selecting lands suitable for formation as large landed estates. It will be a purely Advisory Committee. The Committee in each district will consist of the Deputy Commissioner (President).

2. The Sub-Division Assistant Commissioner at Headquarters (Secretary).

469

MEMBERS.

3. The District Excise Officer.

4. The District Forest Officer.

5. The Senior Daroga or other representative of the Amrut Mahal Department to be nominated by the Amrut Mahal Superintendent.

6. Five non-official members to be nominated by the Deputy Commissioner.

The Committee may meet at convenient centres and send up definite proposals to Government within six months from the date of this order. Government observe that some excess lands in Amrut Mahal Kavals have since been thrown open for cultivation. Large estates may be proposed to be formed out of such lands after setting apart such portions as may be required to meet ordinary darkhasts by local inhabitants of limited means.

Government are not in favour of raising the minimum limit of an estate from 50 to 100 acres as suggested, as men of moderate means will thereby be excluded from taking advantage of the benefits of the scheme.

Suggestion No. 2.—Government consider that the grant of these large landed estates should at present be subject to their sanction as provided in the existing rules. The question of authorising the Deputy Commissioners to dispose of such applications on their own authority will be considered after watching the results of the scheme for some time.

Suggestion No. 3.—Under the rules, only upset price is recoverable when there is not more than one application for a block, and there is further provision in special cases to allow the upset price to be recovered in instalments, or to be remitted altogether. These provisions are liberal, and Government do not consider that the lands should be granted free of price in all cases.

Suggestion No. 4.—The rules do not prohibit alienation absolutely, but require that the period of *shraya* tenure should be over, and the title-deed obtained by the grantee before alienation can be recognised. This restriction seems necessary.

Suggestion No. 5.—Loans may be granted for the improvement of such estates subject to the terms and conditions laid down in the existing loan rules.

Suggestion No. 6.—Government accept the suggestion that timber and bamboos required *bona-fide* for the construction of cattle sheds and farm houses for the estate labourers may be given at concession rates. Half the seigniorage rates prevailing in the locality may be levied.

The foregoing additions will be incorporated in the Rules.

Government desire to convey their thanks to the members of the Committee for their valuable report.

PRESS TABLE.

We, the [illegible] ORT [illegible] mitted by the Government in their Order No. G. 15601-50, d[illegible] suggesting measures necessary to popularise the Landed Estate Sch[illegible]s:—

470 (1) [illegible] the Government No. 4009-21—L. R. 522-13-5, dated 1st December 191[illegible] to the creation of Large Landed Estates are sufficiently encouraging.

But with a view [illegible]ularise the formation of Large Landed Estates, the Committee are [illegible] following opinion:—

To give the name of "Large Landed Estate" a block must consist of at least 100 acres.

Lands, which are to be set apart as a block, should be, as far as possible, a fertile one. Assessed waste lands, unassessed lands are generally of a character not fit for cultivation and no person would either care to own such lands and much less to invest large sums of money in improving the same. Such of the assessed and unassessed waste lands, the soil of which is of a fertile kind, have already been taken up for cultivation. It is, therefore, necessary to select such lands that possess sufficient fertility and water facility and set them apart as separate blocks for realising the object in view.

The lands which are fit for being converted into Large Landed Estates are:—

(1) Amrut Mahal kavals,
(2) Date groves,
(3) Small tracts of forest reserves,
(4) Large blocks below Marikanave Reservoir, Krishnarajasagara, Soolekere, in Malvalli Taluk, and below various other large works of Irrigation, and,
(5) Such other lands as may be considered fit for cultivation.

While realising that certain extent of date groves and Amrut Mahal Kavals and forest reserves are necessary for the benefit of the departments, we consider that the existence of extensive Amrut Mahal Kavals and date groves and forest reserves are more than necessary for the departments concerned. There are some date groves which are only so in name, with a few date trees here and there. There are also best lands reserved as Amrut Mahal Kavals in different localities of the State, which bear no proportion either to the small number of cattle which are reared in that locality or to the number of cattle as a whole reared by the department.

In spite of these facts, the departments are generally conservative and would not easily surrender those lands for public cultivation. Whenever the lands of that kind are applied for with a view to lay out a large landed estate, the officers of the department concerned refuse to give those lands on the ground that they are required for departmental needs. So the applicants will not get the lands they desire and this accounts for the paucity of enterprising applicants.

By throwing open for cultivation the date groves it will also minimise the supply of toddy and thus prevent to an appreciable extent, the growth of drinking evil which has of late been increasing in an alarming rate which increase the Government also is solicitous of checking.

It is the opinion of some of the members of the Committee that the order of the Government that such estates should not be partitioned without the sanction of Government, will be a great hardship and would interfere with the rights under the law of succession. No doubt it does interfere with the law of succession to a certain extent. But if partition of such estates is permitted, it will cut at the very root of the name "Large Landed Estates" and such divisions would be a hindrance to the development of agriculture on a large scale. Though an exception made in favour of large landed estates as not being partible, may be considered a drastic change in the law of devolution of property, yet, it is desirable in the interests of preserving the estate as a single compact block, that it should be made impartible.

With a view to popularise the landed estates scheme, the Committee beg to place before Government the following suggestions:—

(1) That in each district a Committee may be appointed with the Deputy Commissioner of the District as President, the representatives of Amrut Mahal, Excise and Forest Departments, with a majority of non-official gentlemen of the district to investigate and set apart such of the lands as are fit for cultivation and improvement. A list of such lands should be published in the *Mysore Gazette* and copies of such lists should be freely circulated throughout the State.

47

(2) When such lands are a[illegible]lied for the ap[illegible]rised to give them to the applicants.

(3) The rule requiring an upset price being [illegible]way with, as the applicant has to invest large sums of money in in[illegible]ing machi[illegible]neries with a view to undertake the improved and scienti[illegible]

(4) In order to attract men to invest money on such [illegible]iew of the fact that such landed estates should become a valuable property, it [illegible]d that the alienation of such estate as a single unit, in favour of one person should be [illegible]ted.

(5) The Government may lend money on easy terms for the purchase of machin[illegible] and other costly agricultural implements if in the opinion of the Government the applicant is sufficiently solvent.

(6) In order to enable the applicants to erect farm-houses, cattle sheds and houses for workmen, the Government may give them the required quantity of timber and bamboos at a concession rate and recover the same by instalment system.
